GENERAL INFORMATION

The Winter Quarter of the West Tennessee State Teachers College, session of 1929-30, will open Monday, December 30, 1929, and continue for twelve weeks. The Spring Quarter will begin March 20, 1930, and will close June 10th. It will be divided into two terms of six weeks each, the first term beginning March 20, and the second term April 30. The Summer Quarter will also cover twelve weeks and will be divided into two terms of six weeks each. The first term of the Summer Quarter will begin June 11, 1930, and the second term July 23. The quarter will close August 30, 1930.

In the Winter Quarter all courses will be given for twelve weeks. Many of the courses offered are continuous, the first having been given during the Fall Quarter. All of the courses given are listed in the following pages.

In the Spring and Summer Quarters some courses will be given for six weeks and some for twelve weeks. Most courses will begin at the beginning of the quarter, but a number of courses will be offered for the last six weeks. Students may register for the whole quarter, or for either term. Credit will not be given for less than six weeks' attendance. Students desiring credit for six weeks' work should register not later than the third day of the term, and no credit for a six weeks' term will be allowed for a later registration. To count credit made during a six weeks' term toward the renewal of a certificate the student must register not later than the second day of the term; and to count a quarter's credit toward certificate or renewal, registration must be completed on or before the fourth day of the quarter. Students desiring full credit for a quarter's work should register during the first week of the quarter.

The Spring and Summer Quarters are being divided into terms of six weeks each in order to accommodate teachers desiring certificates, or the renewal of certificates, who may not be able to stay for the entire Spring or Summer Quarter. Students may make a full quarter's work by attending the first term of the Fall Quarter and one term of the Spring or Summer Quarter, or by attending the last term of the Spring Quarter and the first term of the Summer Quarter. There will be a limited number of courses which may be taken in this way and many teachers may be accommodated thereby.

Teachers are advised to start at the beginning of the quarter when possible and to continue for the full quarter. Where this is impracticable a full quarter's credit may be made by attendance at two six weeks' terms.

ENTRANCE DATE FOR MID-YEAR GRADUATES

Graduates of local high schools completing their four-year course in January, 1930, may enter upon a special course at the West Tennessee State Teachers College beginning February 10, 1930. They can make six to nine quarter hours credit during the second half of the Winter Quarter and may enter a number of beginning courses in the Spring Quarter. By continuing through the Spring Quarter, they can complete a half year's work, and those who continue through the Summer Quarter can, by making a good record, enter sophomore courses the following year.

A few beginning courses will be offered open to all high school graduates and a sufficient number of full Winter Quarter courses may be entered to make the full quota of credit allowed for a half quarter. The following courses are suggested from which such high school graduates may select their work: English 100, Chemistry 100, Biology 104, all of

which are beginning courses commencing at the middle of the Winter Quarter; Education 105, Education 109, History 101; certain courses in Commerce, Industrial Arts, Music and Drawing; French 101, Spanish 107 for students who have completed one unit in high school French or Spanish; French 201 and Spanish 207, for those who have completed two units in high school French or Spanish; Latin 120, Latin 122 for those who have completed two units of high school Latin.

SPECIAL SPRING-SUMMER QUARTER

To accommodate many teachers who desire a full quarter's work and who are unable to attend one of the regular quarters of the College, special arrangements are being made for a Spring-Summer Quarter, beginning April 30 and ending July 22, 1930. A number of additional teachers will be engaged to offer new courses during this period. Many of the courses beginning April 30 will be full quarter courses, running through the whole quarter and carrying a full quarter's credit.

Students entering April 30 and continuing for twelve weeks will be charged only the regular fees for a quarter's attendance. Bulletin in regard to Spring-Summer Quarter will be issued in January, 1930.

SPECIAL COURSES FOR TEACHERS IN SERVICE

In order to meet the needs of the teachers in service the College is offering a number of courses scheduled to meet Saturday morning and convenient afternoon hours. In all of these courses full College credit is given, and teachers in service have an opportunity of working toward a College degree while carrying on their regular work of instruction. Attention of local teachers is called to the considerable number of classes scheduled for the hours of three and four o'clock Monday, Wednesday and Friday, as well as to the special classes meeting Saturday morning.

ENTRANCE REQUIREMENTS

For unconditional entrance to the freshman class, the applicant must be at least sixteen years of age and must be a graduate of a standard four-year high school accredited by the State Department of Education or by the Commission on Accredited Schools of the Southern Association of Colleges and Secondary Schools, with at least fifteen approved high school units.

Graduates of unaccredited schools doing four years of high school work may be admitted on certificate from their principal, provided they pass satisfactory examination on four units of high school work taken in their fourth year at the high school.

Teachers and prospective teachers, twenty-one years of age and over, who have not completed four years of high school work may be admitted as special students and allowed to take such courses as they are prepared for, provided that such special students must satisfy all entrance requirements to qualify for diploma or degree, and that these entrance requirements must be satisfied during the first year of attendance.

Such teachers will find many courses in the curricula offered adapted to their needs—courses dealing with common school branches and other phases of elementary education, as well as courses on special subjects beginning in the freshman year. The Summer Quarter will offer regular college courses, and also many courses bearing on elementary and high school work, with a wide variety of professional courses that will appeal to all teachers.

EXPENSES

All students pay a registration fee of \$5.00 and a student activity fee of \$3.00 each quarter, and a breakage fee of \$1.00 once a year. The total expenses for boarding students, including board, lodging, laundry, and all school fees, are \$84.00 for the Winter Quarter and the same amount for the Spring Quarter. Students in attendance for a term of six weeks will be charged proportionately for board, lodging, laundry. The other fees are the same for a six weeks' term or a quarter. Rooms are rented by the quarter and no reduction will be made for late registration, or for absence of less than a month. Board is charged from the beginning of the term and no reduction is allowed for late registration. Students absent from the dining hall for two weeks or more, on account of illness or withdrawal from school before the close of the term, will be entitled to a refund. Registration fees are not refunded, and no other refund will be made except as indicated above.

TUITION

Students, residents of Tennessee, who sign a pledge to teach school in Tennessee pay no tuition. Non-residents and residents who do not sign the pledge, pay tuition of \$30.00 per quarter.

LABORATORY FEES

The following fees are charged students pursuing courses in the several departments to cover materials used:

All courses in Biology, Manual Training and Physics, \$1.00 each per quarter; Drawing, 50 cents each.

All courses in Chemistry, \$2.00 each per quarter.

Home Economics, 100, 101, 102, 103, 300, 301, 302, 303, 303, 307, 410 and 411, 50 cents each; 104, \$1.00; 204, 304, 306, \$2.50 each; 205, 206, \$3.50 each; 413, \$5.00

Education, 204, 50 cents; Education, 304, \$1.00.

Music, 130, 131, 132, 230, 231, 232, \$1.00 each; 180, 181, 182, \$2.00 each.

DORMITORIES

The College maintains two dormitories, Mynders Hall for ladies and the Men's Dormitory. Students boarding away from home are expected to live in the dormitories. This regulation is made because the College authorities believe that students cannot otherwise enjoy all the advantages of college attendance. Young lady students away from home having immediate relatives of the family in Memphis or near the College may board with them. Other students will not be permitted to live outside of the dormitory except for satisfactory reason upon the written request of the parent or guardian, and then only in homes approved by the College authorities.

All arrangements for board outside of the dormitory must be approved by the College, and except in homes of immediate relatives, must be made through the College.

RESERVATIONS

It is very important that those who expect to attend the College should write to the President and have room reserved as soon as they definitely determine to attend. A deposit fee of \$3.00 is required for reservation which will be credited on the expenses for the term. The reservation fee will not be refunded unless notice of cancellation is given to the College authorities four days before the beginning of the quarter for which reservation is made.

COURSES OFFERED IN THE WINTER QUARTER, 1929-30

Below is a list of the courses offered in the Winter Quarter. They are described in the general catalogue, a copy of which can be secured by application. New students may enter any courses for which they are prepared. Figures in parentheses indicate the number of quarter hours of credit.

For the benefit of teachers in service, certain classes have been scheduled for Saturday morning and others at 3:00 and 4:00 certain afternoons. A teacher doing full time teaching may carry eight hours each quarter on the approval of the Board of Education employing him.

DEPARTMENT OF COMMERCE**Mr. Frizell**

The department of commerce has been organized in the West Tennessee State Teachers College for the purpose of training teachers of commercial subjects for high school positions in the State. It is recognized that certain courses offered by this department have value for the general student, and credit to the amount of two to four quarter hours in typewriting, three to six hours in shorthand, three to six hours in accounting—a total of not more than fifteen quarter hours—will be allowed to any applicant for the College degree.

To prepare for teaching of commercial subjects in high schools, a student should select commerce as a major subject and should make at least thirty-six quarter hours in this department. Not more than forty-five quarter hours credit toward a degree will be accepted from courses listed under this department.

VISITING SPEAKERS

The executive committee has been very fortunate in being able to secure for the various general and departmental meetings a number of very distinguished speakers and takes pride in announcing the following:

DR. JOHN WILLIAM COOPER—Dr. Cooper is the United States Commissioner of Education. He holds degrees from the University of California and has served in the State of California both as Superintendent of Schools in several large cities and as State Superintendent. He is a deep student of educational problems and a forceful speaker. Dr. Cooper addresses the Association in one meeting only—the general session on Thursday evening.

DR. FRANCIS G. BLAIR—Dr. Blair is Superintendent of Schools for the State of Illinois, a position he has held for nearly thirty years. He served as president of the National Education Association in 1926-1927. Dr. Blair is a speaker of unusual charm and eloquence, and is a noted authority on educational matters. Dr. Blair will address the Association in general session Friday morning, and also the Intermediate and Superintendents Sections.

MISS E. RUTH PYRTLE—Miss Pyrtle was honored with the presidency of the National Education Association when that body held its annual meeting in Atlanta last July. She has been prominent in the work of the Association for many years. She holds degrees from the University of Nebraska, and has held many executive positions in the local and state associations of that state. She is principal of the Bancroft School, Lincoln, Nebraska, and has made a deep study of the Elementary School. Miss Pyrtle will appear on the general program Friday morning and also on the Intermediate program.

MISS MAY HILL—Miss Hill is director of Kindergarten-Primary Education at Western Reserve University, Cleveland, Ohio. She has been prominent in the work of the National Department of Kindergarten-Primary Council, and is the author of a number of works dealing with this phase of educational work. Miss Hill addresses the Primary Section at both the morning and afternoon sessions.

DR. JAMES M. GLASS—Dr. Glass attained prominence in the Junior High School field during his principalship of the well-known Washington Junior High School of Rochester, New York. In 1921 he was appointed Director of Junior High Schools for the State of Pennsylvania. His "Manual for Junior High Schools" was published in 1926. He is the author of a number of articles on Junior High School work. He has served as special investigator for the Commonwealth Fund in a survey of curriculum practices, and is regarded as one of the foremost authorities in the country on the Junior High School. At present Dr. Glass is professor of Secondary Education at Rollins College, Winter Park, Florida, and is also engaged in consultation work for the State of Florida in connection with its expansion program on the 6-3-3 and 6-6 plans. Dr. Glass will address a joint meeting of superintendents, principals, and high school teachers on Friday morning and the Superintendents Section on Friday afternoon.

DR. CHARLES W. KNUDSEN—Dr. Knudsen is Professor of Secondary Education at George Peabody College for Teachers. For four years he was engaged in supervision of high schools for the State Department of Illinois. He formerly taught in the College of Education at the University of Illinois. He is the author of a series of articles now appearing in the journals of the state teachers associations of the South. Dr. Knudsen will address the Intermediate Section on both the morning and afternoon programs on Friday.

COMMISSIONER P. L. HARNED—Our State Commissioner of Education is always a welcome guest at the meetings of the West Tennessee Education Association. Having served as a member of the State Board of Education since 1903, Chairman of the State Board since 1915, State High School Supervisor, State Elementary Supervisor, and State Commissioner of Education since 1923, Commissioner Harned knows the public school system of Tennessee and its problems as perhaps does no other one in Tennessee. Commissioner Harned addresses the general session on Saturday morning.

DR. BRUCE PAYNE—Dr. Payne, president of George Peabody College for Teachers, needs no introduction to the teachers of West Tennessee, thousands of whom have been students in this great institution. The Association feels especially honored in having him address the members in general session Saturday morning.

HON. W. A. BASS—Mr. Bass has been connected with the State Department of Education for many years, and as State High School Supervisor has rendered important and effective service to the schools of Tennessee. Mr. Bass will address both the High School Section and the Superintendents Section on Friday afternoon.

MR. C. W. WHITTEN—Mr. Whitten is secretary of the National Federation of Athletic Associations. He will address the High School Section on Friday afternoon.

ANNOUNCEMENTS

Read carefully this program and keep it. Note how strong both general and departmental programs are and check those you are most anxious to hear.

Make your arrangements now to be present at the opening meeting.

Our opening and closing meetings have not been properly supported.

This year these meetings are such that no teacher can afford to miss them.

All Primary teachers are invited to the Primary luncheon in the dining hall of Teachers College at 1:00 P. M. Friday, served by the Parent-Teachers Association. Tickets will be seventy-five cents each and will be on sale at the college Friday morning. All Primary teachers are invited. See program of Primary Section for details of luncheon meeting.

The Memphis Educational Association will tender a reception in honor of Miss E. Ruth Pyrtle, President of N. E. A. and other visiting teachers at Colonial Country Club on Friday afternoon, Nov. 15, from four until five-thirty P. M. All members of West Tennessee Education Association are invited. Cars will be provided by the various Parent-Teachers Associations to take those who wish for a short ride and then to the reception.

Miss Alice O'Donnell and her hospitality committee will be glad to serve at any time. Call upon them.

The Peabody College alumni banquet, honoring Miss Sue M. Powers, will be given in the Italian Room of Hotel Peabody at six o'clock, Friday, Nov. 15. Tickets may be had for \$2.00 each. Tickets for this banquet will be on sale at Teachers College all day Friday.

Every teacher is urged to drop registration card in the box provided for his or her county or city. If your county or city is to receive credit for your attendance, the card should be filled in and deposited in the box. Registration will close at four p. m. Friday. This is positive.

Tickets for the theatre party to be given at Mazda Theatre, 291 Madison Ave., 8:00 p. m., Nov. 15, may be obtained at Teachers College all day Friday upon presentation of membership card.

All secretarial business will be suspended during the actual time of meetings.

The Parent-Teacher Association, of Teachers College Training School, will serve lunches at the Training School for the nominal sum of fifty cents each. Parties or groups may be arranged, if desired, with a separate room. Arrangements for special rooms may be made by addressing O. H. Jones, Sec., Normal, Tenn., before Nov. 14, advising name of group and approximate number of places desired.

Several County groups have reserved hotel space already, and others that plan to come in groups are advised to make reservations at once, because there are two other large meetings in Memphis during the time of our meeting. The secretary, Mr. O. H. Jones, will be glad to assist any party or individual in the matter of reservations.
